## BULLETIN

A descendant of Anthony Reche came to visit the Historical House and to have help in finding the family plot in the I.O.O.F. Cemetery. A young college girl (Cal-Poly at Pomona) needed help with a paper she was writing. A young man (from University of San Diego) came to the House to pick up copies of documents for a paper due this semester. A call from the people restoring one of our landmarks - the Odd Fellows Hall - wishing information. All of the above took place in just one week. So I feel that the Historical Society and the Historical House/Museum is filling a place in our community.

When you come to our Clean-Up Day and our Open House, please notice our Morris chairs all newly upholstered. The chairs were donated by Juanita Walden and the Angel Society provided the funds for the work. Village Interiors was most helpful with advice, workmanship and financial help.

We are planning and planning. Ideas come and go, but we do have some progress. Master Plan for fencing, plantings, etc., Book Committee received wonderful report from Gloria Seeleye, and ideas for future meetings are all moving forward.

See you in December,

Marjorie
